

Dr. Bryan O'Neil Boulanger is an assistant professor of environmental engineering in the Zachry Department of Civil Engineering at Texas A&M University. He holds additional appointments with the Texas A&M Health Science Center's School of Rural Public Health and the Kunming University of Science and Technology's Environmental Engineering Program in Kunming, China. Dr. Boulanger has performed research and served as a consultant on environmental and engineering issues pertaining to treatment of chemical and biological contaminants in water and wastewater since 2001. In recognition of his contributions to his field of expertise, Dr. Boulanger was awarded a Bronze Medal for Commendable Service from the US Environmental Protection Agency (EPA) in 2006 and an EPA Mission Award from the Office of Pollution, Prevention, and Toxics in 2007. Bryan's research and writings have been published in Journals such as *Environmental Science and Technology*, *Chemosphere*, *Journal of Environmental Management*, *Journal of Environmental Monitoring*, and the *Journal of Chemical & Engineering Data*. He currently serves on the Editorial Board of the *Journal of Steroids & Hormonal Sciences* and on peer-consultation advisory panels for the US EPA. Bryan holds undergraduate and a master's of science degrees in Civil and Environmental Engineering from the University of Connecticut and a PhD in Civil & Environmental Engineering from the University of Iowa.
