

Dean A. Moulis, P.E.

Dean Moulis has been with the Arizona Department of Environmental Quality (ADEQ) for three years. Prior to ADEQ, Dean was the Wastewater Superintendent for the Town of Sahuarita, designed flowmeters for the water and wastewater industry, and worked for a large earthmoving contractor installing underground utilities (including water and sewer) and constructing potable water booster pump stations.

Dean Moulis is a native of Arizona and acquired a Mechanical Engineering degree from the University of Arizona. He has recently acquired the position as the Water Infrastructure Engineer for ADEQ's Office of Border and Environmental Protection. He holds registration certificates as a Civil Professional Engineer and as an Arizona Grade 4 Certified Operator, holds licenses in wastewater treatment/collections and water distribution/treatment. Dean's prior role with ADEQ was in the Water Quality Compliance Programs Unit.
