

Canalization Project Prohibited Activities Signs

Xochitl Aranda, P.E.
Acting Principal Engineer of Operations
U.S. Section- IBWC

Canalization Project

Consists of flood control structures along the Rio Grande from Percha Dam to American Dam:

- Floodways
- Levees
- Maintenance and Access Roads
- Drainage Structures
- Sediment Basins

USIBWC operates and maintains to ensure structural stability and operability for deliveries and flood control

Permitted Recreational Use

- Walking/running
- Bicycling
- Horseback riding
- Bird hunting in designated areas during Migratory Bird Hunting Season
- No motorized vehicles of any kind, including:
 - All Terrain Vehicles
 - Motorcycles
 - Cars/trucks
 - Farm equipment

River Management Plan

Guide for completing mission requirements while restoring and preserving natural resources includes:

- Floodplain Management Plan
- Endangered Species Management Plan
