Public Access to Construction Areas

International Boundary and Water Commission

United States Section

Engineering Services Division

March 29, 2011
Current construction is temporarily affecting four local parks and river trails.

- Sunland Park River Trail
- Rio Grande River Regional Park
- Mesilla Valley Bosque State Park
- La Llorona Park
Vehicular gates along the levee have been removed during construction.

– Contractors are required to remove gates for rehabilitation.

– All gates will be replaced prior to completion of construction.
Sunland Park River Trail

- Access to trail available at Racetrack Bridge contingent upon construction activities.
- People should not go around construction gates to access levee or trails.
- Construction scheduled for completion by February 2012*.

* Construction may be extended due to unforeseen circumstances.
Sunland Park River Trail.

Parking area near Racetrack Dr.
Parking area near Racetrack Drive is currently open. Levee access closed throughout Sunland Park project.
Country Club Road.

All levee access closed at Country Club Road.
Rio Grande River Regional Park

- Open north of Borderland Bridge with impacted areas during construction.
- Removed sidewalks will be rebuilt.
- Construction scheduled for completion by May 2011*.

* Construction may be extended due to unforeseen circumstances.
Borderland Road.

River trail only accessible on north side of Borderland Road.
Canutillo Bridge – La Union Ave.

River trail is accessible on both sides of La Union Avenue.
Vinton Road.

River trail is accessible on south side of Vinton Road.
Areas of river trail are buried. Removed sidewalks will be replaced.
Mesilla Valley Bosque State Park

- Completely open during construction.
- Traffic detours may be in place.
- Pedestrians must watch for haul trucks when walking to trails.
- Construction scheduled for completion by August 2011*.

* Construction may be extended due to unforeseen circumstances.
Mesilla Valley Bosque State Park access road.

There are some traffic detours and pedestrian impacts, but park is open.
La Llorona Park

- During construction, half of the park will be open at a time.
- Trees growing on or very near levee will be removed.
- Removed sidewalks will be rebuilt.
- Construction scheduled for completion by July 2011*.

* Construction may be extended due to unforeseen circumstances.

La Llorona Park in Las Cruces

North side closed 4/1 to about 5/15
South side closed 5/15 to about 6/30
North side of La Llorona Park.  South side of La Llorona Park.
A toe drain is being constructed along large lengths of the landside levee toe.

- Toe drain is 4 feet deep and 3 feet wide.
- Toe drain is placed within IBWC right-of-way (ROW).
Toe drain trench is dug and lined with geotextile. The trench is filled with gravel.
Geotextile is folded over top of gravel.

Six inches of gravel is placed on top of folded geotextile to complete toe drain.
International Boundary and Water Commission
United States Section

• Do not park in construction areas
• Do not park in front of construction gates.
• Do not park at access points on bridges.
Construction Areas are UNSAFE

Do not go around gates.

Stay on open trails.

Do not use levee during construction.
Scapers can weigh almost 200,000 lbs and travel 34 mph.  
Water wagons carry 8,000 gallons of water and also travel over 30 mph.
Front end loaders can weight 70,000 lbs and carry an additional 50,000 lbs.

Motor graders are over 30,000 lbs and can travel 29 mph.
Excavators come in many sizes. They can swing 360° quickly. There is no front and back. They can travel either direction without warning.
Towards the end of construction, new IBWC signs will be placed at all major access points.
After construction completion, levees will be built to current FEMA standards.

- Trails and parks will return to preconstruction access conditions.
- Removed gates will be replaced.
- Areas disturbed by construction activities will be reseeded.
