USIBWC ANNOUNCES 2021-2022 BIRD HUNTING AREAS 
ALONG THE RIO GRANDE IN 
SOUTHERN NEW MEXICO AND WEST TEXAS

The United States Section of the International Boundary and Water Commission (USIBWC) has released information regarding migratory and game bird hunting areas on USIBWC lands along the Rio Grande in El Paso and Hudspeth Counties, Texas and in Doña Ana and Sierra Counties, New Mexico for the 2021-2022 bird hunting season, starting with dove season on September 1, 2021. Due to an increase in illegal activities along the border and the river, hunters are being warned that the entire levee system is at high risk for illegal activities. The access point at the Ysleta-Zaragaoza International Bridge will be closed again during the 2021-2022 season.

Hunting must be conducted in compliance with all hunting rules and regulations. Hunting regulations and the USIBWC prohibit hunting where people could be endangered, such as near homes, businesses, bridges, Ports of Entry, and areas where people are recreating.

In Texas, all of the the authorized bird hunting areas are along the international border. The attached map uses the numbering system of the U.S. Department of Homeland Security Border Security Initiative (BSI) markers on the border fence and corresponding markers in Mexico to indicate hunting areas. The markers are blue signs approximately two feet square with yellow neon numbers. Access will be from Hudspeth County as shown on the Texas map. During the 2021-2022 season, hunting will be permitted as follows:

1. Between markers 61 and 70: near Herring Road and downstream to the vicinity of the Tornillo-Guadalupe International Bridge (Marcelino Serna Point of Entry).
2. Between markers 72 and 90: from 1.2 miles downstream from the Tornillo-Guadalupe International Bridge (Marcelino Serna Port of Entry) to 0.8 miles upstream from the Ft. Hancock-Porvenir International Bridge.

3. Between marker 92 and Esperanza Road (FM192): from 1.4 miles downstream from the Ft. Hancock-Porvenir International Bridge for 26.7 miles to Esperanza Road (FM 192).

The USIBWC does not control the access points in Texas but is providing information about access as a courtesy to hunters. There is no access through the Ysleta-Zaragoza International Bridge and no hunting is allowed along the levee in that part of El Paso County.

The three access points are:

- At the Alamo Arroyo near marker 86, accessed from Highway 20 approximately 3.5 miles west of Fort Hancock.
- At the Guayuco Arroyo off Esperanza Road (FM 192) approximately one-half mile west from the intersection with FM 34.
- At Esperanza Road (FM 192) in Hudspeth County approximately 28 miles downstream from the Fort Hancock-Porvenir International Bridge.

See attached map for specific locations in Texas.

**Government Property Rules in USIBWC Areas in Texas:**

- Use existing ramps to drive onto the levee or floodplain. Driving on the levee slope damages the levee and is prohibited.
- Hunters are responsible for identifying legal access points to reach hunting areas and must respect private property as well as all municipal, county, state and federal properties of agencies other than the USIBWC.
- Do not damage vegetation in the floodplain. Avoid driving on grass, brush, and trees or disturbing the ground.
- Remove your trash, including any shell casings, to avoid future hunting restrictions.
- No alcoholic beverages.
- Do not discharge firearms within 600 feet of homes or businesses or toward other people.
- Hunters who hunt and/or drive on the levee on USIBWC lands do so at their own risk.
- Hunters should be aware of security considerations along the border with Mexico.
- Hunters must have all applicable hunting licenses, follow all hunting laws, and use appropriate firearms. **Texas Game Wardens** will enforce state hunting laws on USIBWC lands.
• Only migratory and bird hunting is allowed. No other hunting or target practice is permitted.

In New Mexico, the USIBWC authorizes bird hunting in three different areas, totaling approximately 18 miles along the Rio Grande. The hunting areas remain the same as last year. The 2021-2022 bird hunting areas are located at:

1. New Mexico Highway 187 Bridge (Garfield Bridge) near Derry to County Road E61/Walnut Grove Road, which is near the river's east bank (4 miles). The landmark for both sides of the river is the river's sharp turn with a wide west floodplain and narrow east floodplain.

2. New Mexico Highway 154 Bridge in Hatch (Rincon Bridge) to State Route 393, which is on the east floodplain near Rincon (5 miles).

3. New Mexico Highway 28 Bridge (Santo Tomas) south of Mesilla to Highway 189 Bridge in Vado (9 miles).

See attached map for specific locations in New Mexico.

In New Mexico, the USIBWC levee gates in the authorized hunting areas will remain closed during bird hunting season. Vehicle access is prohibited on the levee in areas where there are levee gates. Vehicles should not block levee gates. In Doña Ana County, the Sheriff’s Department will enforce towing of any abandoned or unauthorized vehicles.

Government Property Rules in USIBWC Areas in New Mexico:

• Hunters are responsible for identifying legal access points to reach hunting areas and must respect private property as well as all municipal, state and federal properties of agencies other than the USIBWC.
• Do not damage vegetation in the floodplain.
• Remove your trash, including any shell casings, to avoid future hunting restrictions.
• No alcoholic beverages.
• Do not discharge firearms within 600 feet of homes or businesses or toward other people.
• Hunters who hunt on USIBWC lands do so at their own risk. In areas where no vehicles are allowed, hunters must access hunting areas in non-motorized transport.
• Hunters must have all applicable hunting licenses, follow all hunting laws, and use appropriate firearms. New Mexico Game Wardens will enforce state hunting laws on USIBWC lands.
• Only migratory and bird hunting is allowed. No other hunting or target practice is permitted.

In both New Mexico and Texas, for public safety and to avoid damage to USIBWC lands and infrastructure, hunters must abide by the following current COVID-19 safety procedures and government property rules:

**COVID-19 Best Practices While Hunting in USIBWC Areas:**
Due to the unprecedented COVID-19 pandemic the USIBWC urges all hunters to abide by federal, state, and local health guidelines. These include but are not limited to the following:

- **The levees and hunting areas are not open in the event there are state/local stay-at-home orders or park closures.**
- Do not enter USIBWC areas if you exhibit COVID-19 symptoms.
- Observe social distancing (6 feet minimum) from others.
- Due to the lack of handwashing facilities, have hand sanitizer available.
- You may want to have a face mask readily available to use when you encounter others, or while hunting with others and can’t maintain social distancing guidelines.
- In case of an emergency, let others know the areas where you are hunting. Verify you have cell phone coverage.
- A first aid kit is recommended when hunting in USIBWC areas.

To fulfill its flood control mission, the USIBWC manages lands along the Rio Grande that are popular with bird hunters. The USIBWC has jurisdiction over lands on the river side of the levee but not on the land side.

Information about bird hunting in Texas is available from the Texas Parks and Wildlife Department, and information about New Mexico hunting regulations is available from the New Mexico Department of Game and Fish.
